

GEZONDE KAS
X GESUNDES GEWÄCHSHAUS X

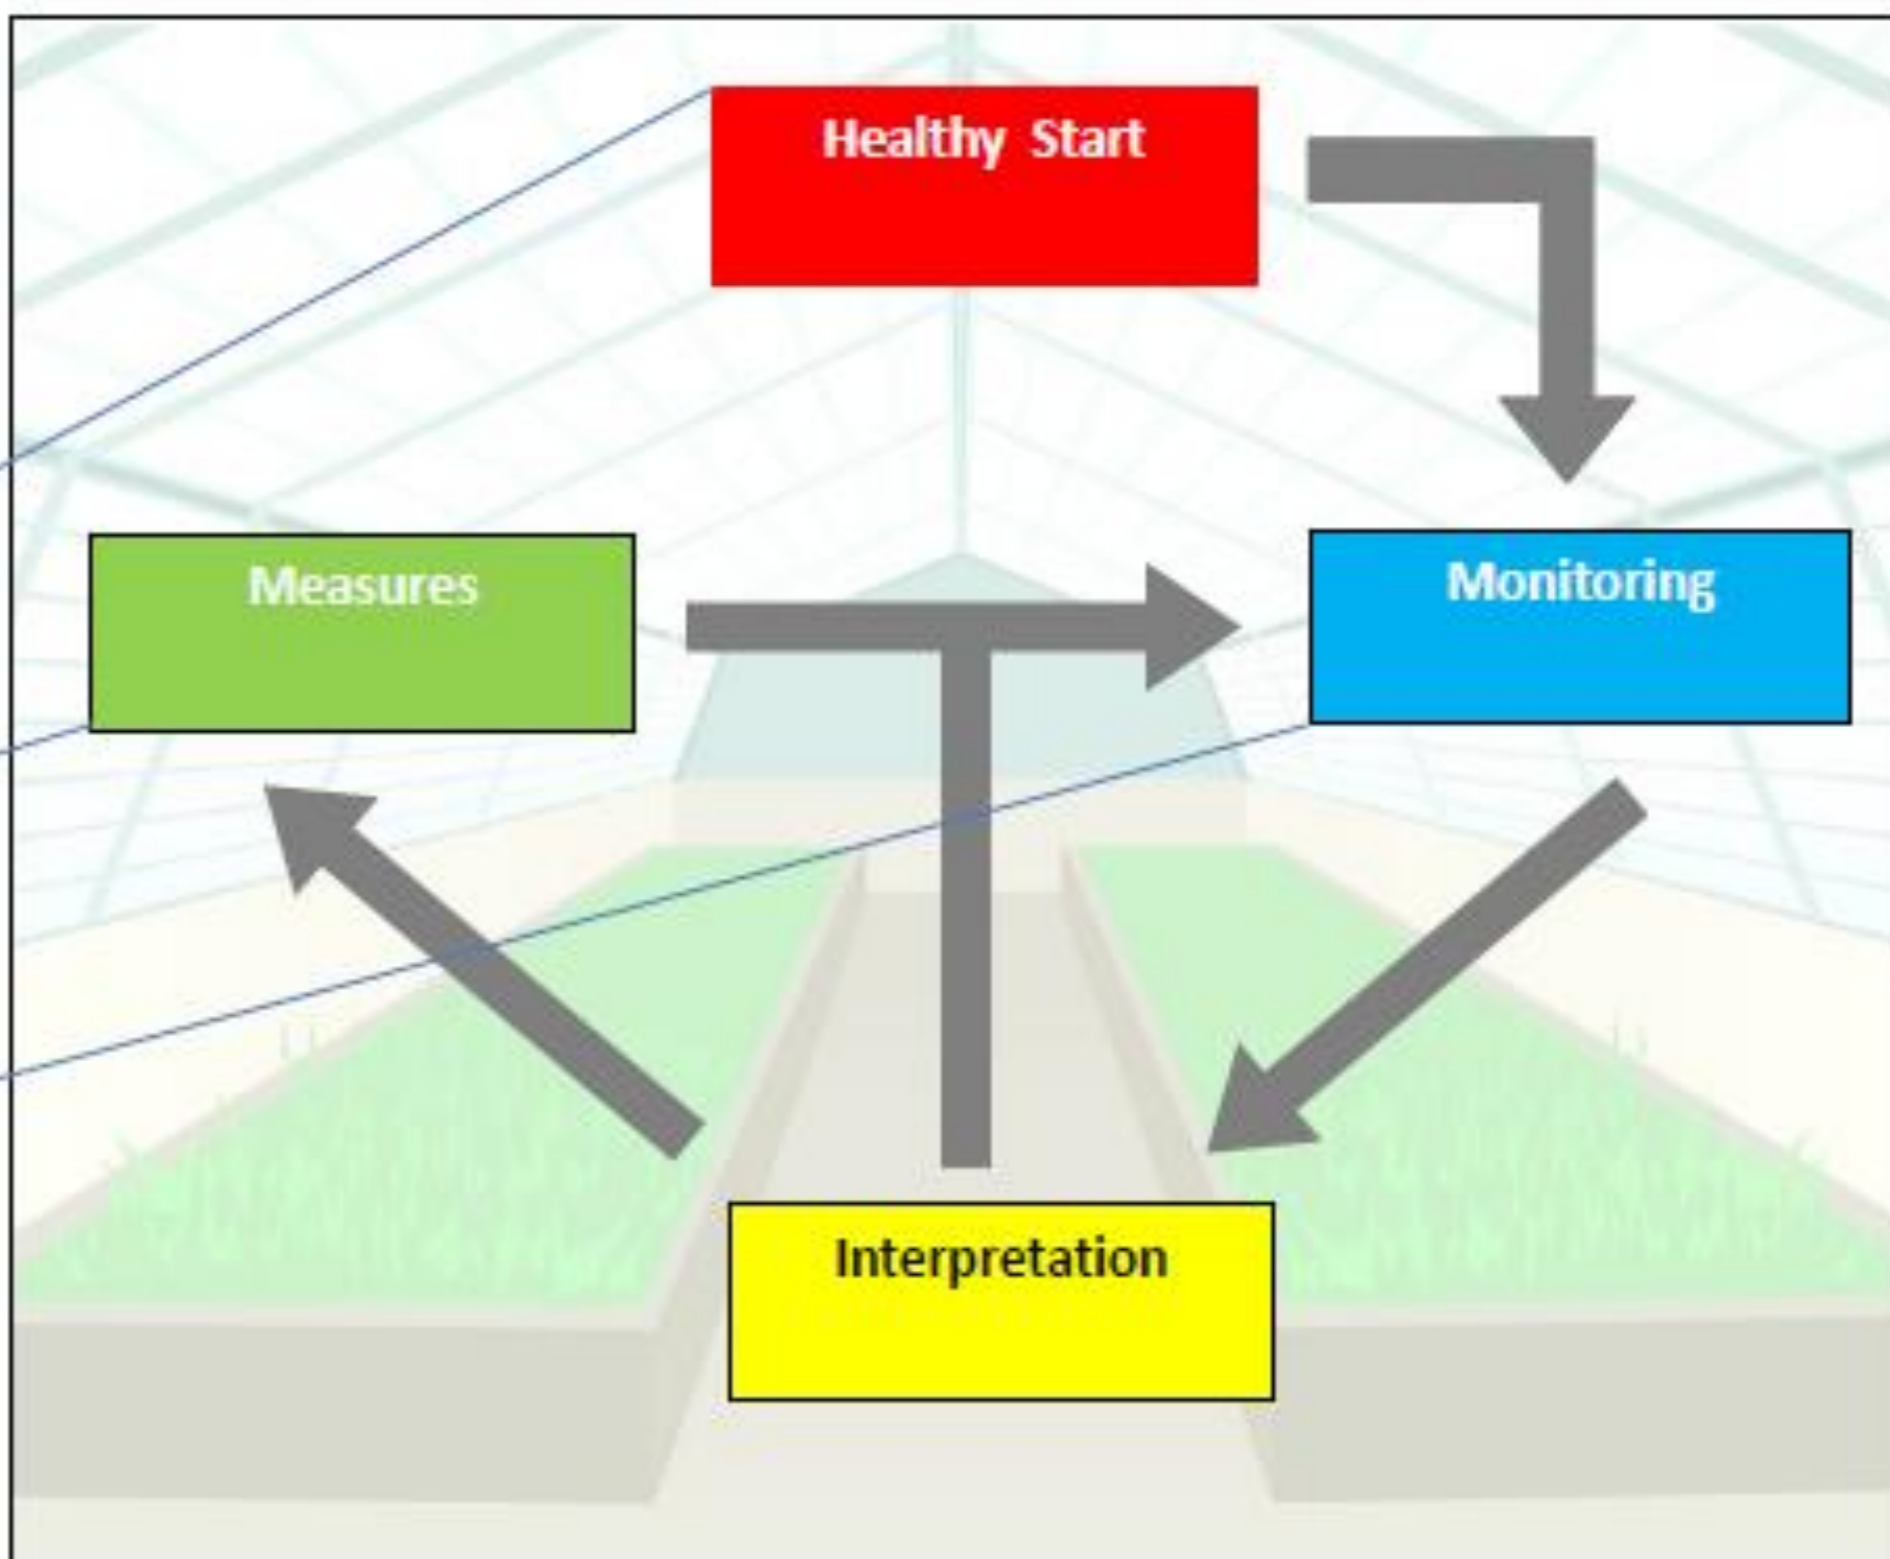

THE GEZONDE KAS / HEALTHY GREENHOUSE SYSTEM

STEPS

The “Gezonde Kas” system consists of the cyclically succeeding steps Monitoring, Interpretation of data and Measures, preceded by the step Healthy Start. The first step, Healthy Start, is performed before cultivation, the other steps during cultivation..

DASHBOARD

All data and advices are collected in the so called dashboard: a SCOT database for data storage, data exchange and alerting. The dashboard shows notifications in a “traffic light coding”. Besides the alert level it also mentions the possible follow up actions.
